Sent by this post  
a copy of our Annual  
Report which I hope may  
only reach you. -

Please post Mr. W. L.'s letter to her

MS. B. 1. 6 v. 7 p. 36

... as its weight will admit of my accompan-  
ing it by a few words more, I take the  
liberty of sending it to thee, with a  
request that thou wilt re. port it, if thou  
thinks it necessary, with some put it in an  
envelope & re. direct it. - We thought it re-  
-cedingly kind of thee to write to us after  
- our after Anniversary's success, when thou  
hadst been so sorely pressed with many  
things weighing upon thee, we thank thee  
very much for thy kindness & for the great  
interest of thy letter. - I most earnestly do  
- wish that thy dear son may know the  
- omnipotent protecting Arms around him  
in his distant location - The tenderest  
earthly parent cannot shield his child  
from harm, if only a wooden partition  
separates him from the object of his anxious  
care, all he can do is to commit him to  
- one who can protect everywhere & whose presence  
is physical barrier can shut out. - But  
surely the prayers & the love & the early  
- training of the earthly parents are  
permitted to form the rampart around  
the child & so they are not parted from  
mutual reliance even through seas  
divide & continents lie between. - If it  
is not asking too much we should like  
- thy uncle to hear of thy son whom thou  
art writing of his mother & grandmother  
how they have borne the separation, I say  
- other family details that may bring us more  
nearly acquainted with so esteemed a  
- friend. - We are very glad indeed to  
- hear the satisfactory issue of Mr. Dupont's  
- new plan, I hope it will go on increasing

in efficiency, while the Philadelphia Convention  
Bazaar affords another example of sympathy  
and to the cause: - We were very glad  
of Mr. Stovis promised co-operation, & of all  
the encouraging things connected  
the occasion. - If thou shouldst see  
Garrison wilt thou tell him I am  
much obliged for his kind letter by  
Sarah Remond, which she has sent & that  
it is always a great pleasure to me  
to read writing in assurance of remembrance  
I should dearly like to see his face again  
in the flesh, as well as those of many other  
dear friends in America; but if that  
is not to be it is a great gratification  
to be near in spirit & affection. - Sarah  
Remond is giving great satisfaction  
Ireland, she has had three very large  
meetings, most respectable & my  
tells me her addresses were very  
appropriate - owing to Deborah Webb  
being attacked with paralytic - My  
R. is the guest of my sister at Cape  
who greatly enjoys having her there  
all she has to tell of the Abolitionists  
Henry Mary Estlin has written  
the lately, so I need not say much  
her, in case she has not, however, it  
will to add that she is still enjoying  
her mind remains on her alma mater  
where the spring is very fresh & all  
her health is much better than it was  
she is benevolently & beneficently pursuing  
her daily life. Show from her care, a  
look & thou mayst be sure I greatly enjoy  
letters. - We have an idea that you have

that charity was required for doing it.
